Dear
Ali Mukti Tanjung
Universitas Pembinaan Masyarakat Indonesia, Medan, Indonesia

The AgBioForum Editorial Board has reviewed your article, the research topic is very interesting, but we decided that your article could not be accepted immediately. You must improve your article on several points.

I am sure you are willing to make this improvement because your scientific articles must meet AgBioForum standards. Please correct your article according to the instructions from the AgBioForum reviewers below:

Reviewer 1

1. The abstract effectively outlines the focus on the welfare of farmers in Indonesia concerning the rice import policy. It succinctly highlights the significance of the study but could provide more explicit insights into the expected findings.
2. The introduction sets a clear context for the research, elucidating the importance of the rice import policy for Indonesian farmers. However, incorporating a more detailed statement of the problem and the research question would further engage the reader.
3. The literature review is comprehensive, offering a nuanced understanding of the background. The integration of various perspectives adds depth to the discussion. However, explicitly stating the gaps in existing literature that the current study aims to address would enhance the literature review's coherence.
4. The methodology section is robust, employing a clear research design. The data collection methods are well-explained. However, providing insights into the potential limitations of the chosen methods would enhance the methodological transparency.
5. The article effectively contributes to the existing knowledge, especially in the context of the welfare of farmers. Clarifying the specific contributions or unique aspects of the study would strengthen the novelty aspect.
6. The reference list is comprehensive and appropriately cited. However, ensuring that all sources are recent and relevant to the study's context would further strengthen the scholarly foundation.

Reviewer 2

1. The abstract succinctly introduces the research focus on the welfare of Indonesian farmers in the context of rice import policy. However, a more explicit mention of the expected findings or contributions would enhance the abstract's completeness.
2. The introduction effectively establishes the relevance of the research topic. Incorporating a concise statement of the research question and objectives would provide a clear roadmap for the reader.
3. The literature review is thorough, providing a comprehensive understanding of the background. Integrating more recent sources, if available, could add currency to the discussion. Explicitly stating the research gaps that the study addresses would strengthen the literature review's coherence.
4. The methodology section is well-structured, outlining the research design and data collection methods. However, including a brief discussion of potential limitations would add transparency to the research approach.
5. The article contributes significantly to the understanding of farmers' welfare in the context of rice import policy. Clarifying the specific contributions or novel aspects of the study would enhance its impact.

6. The reference list is well-organized and appropriately cited. Ensuring that all references are recent and directly relevant to the research topic would further solidify the scholarly foundation.

I hope you can make improvements as soon as possible, and send the revised article again via this email.

Best Regards,

--

Dear

Ali Mukti Tanjung
Universitas Pembinaan Masyarakat Indonesia, Medan, Indonesia

Based on Reviewers' considerations, the article has, at some point, increased. However, you have to improve on a few more points. Hopefully, you are willing to do it.

Please follow the following revision instructions:

Reviewer 1

1. The abstract has improved with a more explicit mention of the expected findings. However, a concise summary of the key results would enhance its completeness and attract more readers.
2. The introduction continues to effectively set the context, and the inclusion of a concise research question adds clarity. Providing a brief overview of the research objectives would further strengthen the introduction.
3. The literature review remains comprehensive, offering a well-rounded background. Incorporating recent sources, if available, and explicitly stating the research gaps would further enhance its scholarly rigor.
4. The methodology section maintains its robust structure. Acknowledging potential limitations demonstrates transparency. However, providing a brief discussion on how the chosen methods align with the research objectives would improve clarity.
5. The article's contribution is evident, particularly in addressing the welfare of farmers. Explicitly stating the unique aspects or contributions of the study would strengthen its novelty.
6. The reference list is well-curated, and sources are appropriately cited. Ensuring that all references are recent and directly tied to the research topic would enhance the overall scholarly foundation.

Reviewer 2

1. The abstract has seen improvement with an explicit mention of expected findings. However, providing a brief summary of the main results would make it more informative.
2. The introduction effectively lays out the research context, and the inclusion of a concise research question is commendable. Adding a brief outline of the research objectives would enhance the introduction's clarity.
3. The literature review continues to be comprehensive, offering a strong foundation. Integrating recent sources and explicitly stating the study's contribution to filling existing gaps would further strengthen its scholarly rigor.
4. The methodology section maintains a solid structure, and acknowledging potential limitations adds transparency. Discussing how the chosen methods align with the research objectives would further improve clarity.

5. The article's contribution is evident, especially in the context of farmers' welfare. Clarifying the unique aspects or contributions of the study would reinforce its novelty.
6. The reference list is well-organized, and sources are appropriately cited. Ensuring that all references are recent and directly relevant to the research topic would enhance the overall scholarly foundation.

Articles that have been revised and please send it back via this email.

Best Regards,
